Volunteering Questions.

Three summary questions are asked to identify which activities reported in the diary were done by the respondent (DP) as part of volunteering for or through an organization. The question text was derived from the CPS volunteer supplement, the reference period being changed from one year to yesterday. Any activity identified as done for or through an organization is marked with a “1” in V3.

Missed Days Questions.
The following “missed days” questions are asked so that analysts may develop a general idea of what types of activities might be missed in ATUS because of the “yesterday” design of the survey. The ATUS never collects activities done by respondents when away from home for more than 2 days. While specific activities done on trips are not collected in this question series, the purpose and length of trips are collected. The reference month in TRV1 refers to the calendar month preceding the month that includes the first designated day for the respondent.
